- i. The shareholding pattern of Promoter/Promoter Group and Public shareholders before and after implementation of scheme is depicted as under:

Category	Pre-Scheme Shareholding (%)	Post-Scheme Shareholding (%)	Change (%)
Promoter/ Promoter Group	35.07	72.82	+37.75
Public Shareholders	64.93	27.18	-37.75

The shareholders may note that implementation of scheme shall result in increase in the shareholding of Promoter/Promoter Group from 35.07 to 72.82 %. Shareholders may also note that approval of the shareholders to scheme of merger would also result in to them agreeing to increase in shareholding of promoters on implementation of the scheme. Therefore, investors should read all the scheme related documents before exercising their voting rights.

Brief explanation regarding the reasons for the increase in shareholding of Promoter/Promoter Group and its impact on the public shareholders in terms of their rights and value of their holding in the Company:

Based on the valuation report by the registered valuer, BDO Valuation Advisory LLP, and the fairness opinion expressed by the Merchant Banker, Sumedha Fiscal Services Ltd, the share swap ratio is 3.16 i.e., for every 100 shares of Sigma Advanced Systems Private Limited (SASPL) the shareholders of SASPL will receive 316 shares of Megasoft Ltd. Also, with Promoter & Promoter Group currently holding 100% shares in SASPL and an increase in the paid-up capital of Megasoft Limited post the merger, there will be an increase in the shareholding of Promoter/Promoter Group and a reduction in the public shareholding from 64.93 % to 27.18%. The EPS of Megasoft Limited is 1.02 which will increase to 1.10 post the merger. The public shareholder continues to enjoy the same privileges and rights post-Merger.

- ii. *Need for the merger, rationale of the scheme, synergies of business of the entities involved in the scheme, impact of the scheme on the shareholders and cost benefit analysis of the scheme*

1. Need for the Merger

Megasoft has commenced focusing, amongst others, in the Aerospace and Defence Sector and is in the process of evaluating a few companies for a potential acquisition and intends to provide centralized corporate, technology, finance and leadership/ management support services to such companies.

The need for merger of Sigma into Megasoft is as follows:

For Megasoft:

- Ready access to Defence Business & Technology thereby reducing gestation period of entering into the profitable and high growth defence sector
- Acquiring a company with a well-established brand & track record with inherent experience, capabilities, and resources in the defence space
- A steady revenue stream from operations would provide a better market acceptance. Also, an existing line of business in the defence area, will provide Megasoft with fundamentals required to go in for future acquisitions in the defence and Aerospace sector.
- This acquisition, while bringing in operational revenues, also brings in the required platform to move forward with identifying niche technological areas in the defence sector for fresh acquisitions/ mergers towards diversification and growth.
- This Merger is highly value accretive for Megasoft Shareholders.

For Sigma:

- Sigma, while growing steadily, has not been able to take advantage of the boom in the defence sector. Through this merger Sigma can leverage to reach new markets including new geographies.
- The liquidity that Megasoft brings will support Sigma to rapidly scale up and access new technology areas and talent pool that will enhance its R&D and manufacturing capabilities.
- This merger shall unlock the value for its shareholders.
- Sigma shall have access to a wider and experienced Leadership talent.

2. Rationale of the Scheme

The proposed amalgamation would be in the best interest of the Parties and their respective shareholders, employees, creditors and other stakeholders as the proposed amalgamation will yield advantages as set out inter alia below:

- (i) While Sigma proposes to leverage its position as a recognized design, development and manufacturing house and an approved company in Aerospace and Defence industry, to provide world-class products and services for national and international clients; Megasoft has commenced focusing, amongst others, in the Aerospace and Defence Sector and is in the process of evaluating a few companies for a potential acquisition and intends to provide centralized corporate, technology, finance and leadership/ management support services to such companies. Considering the

objective of Megasoft to focus in the Aerospace and Defence sector, this amalgamation is being planned and the Scheme is anticipated to generate synergistic benefits, with both companies gaining from their pooled resources, experience, and skills.

- (ii) Combination of Sigma and Megasoft is entirely complementary to, and enhances the value proposition of Megasoft.
- (iii) The amalgamation is based on leveraging the significant complementarities that exist amongst Sigma and Megasoft. The amalgamation would create meaningful value for various stakeholders including respective shareholders, customers, employees, as the combined business would benefit from increased scale, maximize resource utilization, improve management, and reduction in costs and the ability to drive synergies across revenue opportunities and operating efficiencies amongst others
- (iv) The amalgamation is anticipated to generate synergistic benefits set out at para 3 below, with both Sigma and Megasoft gaining from their pooled resources, experiences, and skills.

3. Synergies of Business to Megasoft & Sigma:

The amalgamation is anticipated to generate following synergistic benefits, with both Sigma and Megasoft gaining from their pooled resources, experiences, and skills.

For Megasoft:

- Ready access to Defence Business & Technology thereby reducing gestation period of entering into the profitable and high growth defence sector
- Acquiring a company with a well-established brand & track record with inherent experience, capabilities, and resources in the defence space
- A steady revenue stream from operations would provide a better market acceptance. Also, an existing line of business in the defence area, will provide Megasoft with fundamentals required to go in for future acquisitions in the defence and Aerospace sector.
- This acquisition, while bringing in operational revenues, also brings in the required platform to move forward with identifying niche technological areas in the defence sector for fresh acquisitions/ mergers towards diversification and growth.
- This Merger is highly value accretive for Megasoft Shareholders.

For Sigma:

- Sigma, while growing steadily, has not been able to take advantage of the boom in the defence sector. Through this merger Sigma can leverage to reach new markets including new geographies.
- The liquidity that Megasoft brings will support Sigma to rapidly scale up and access new technology areas and talent pool that will enhance its R&D and manufacturing capabilities.
- This merger shall unlock the value for its shareholders.
- Sigma shall have access to a wider and experienced Leadership talent.

4. Impact of Scheme on Shareholders

The amalgamation of Sigma into Megasoft would be immensely value accretive to the shareholders and various stakeholders of Megasoft, including its shareholders, customers, and employees, as the combined business would benefit from: (i) ready access to Sigma's Defence Business & Technology thereby reducing gestation period of entering into the profitable and high growth defence sector; increased scale; (ii) plug and play of a company with well-established brand & track record with inherent experience and resources in the defence space; and (iii) A steady revenue stream from operations and an existing line of business in the defence area, will provide Megasoft with fundamentals required to go in for future acquisitions in the defence and Aerospace sector.

5. Cost Benefit Analysis of Scheme

The benefits to Megasoft and its shareholders of amalgamation of Sigma into Megasoft which are detailed in para 1 to 4 above far exceed and out way the cost to Megasoft and its shareholders in terms of dilution of the stake of existing shareholders of Megasoft in Megasoft, as they would benefit immensely over time from the accretion in the overall shareholder value of the Megasoft stemming from the synergies and benefits detailed at paras 1 to 4 above.

- iii. Details of Registered Valuer issuing Valuation Report and Merchant Banker issuing Fairness opinion, Summary of methods considered for arriving at the Share-Swap Ratio and Rationale for using above methods.*

Details of Registered Valuer issuing Valuation Report	BDO Valuation Advisory LLP, IBBI No.: IBBI/RV-E/02/2019/103
Merchant Banker issuing Fairness opinion	Sumedha Fiscal Services Limited, SFSL is a Category I Merchant Banker bearing SEBI Registration Number INM000008753

Summary of methods considered for arriving at the Share-Swap Ratio	<ol style="list-style-type: none"> 1. "Cost" Approach- Summation Method 2. "Income" Approach- Discounted Cash Flow Method 3. "Market" Approach- Market Price Method, Comparable Companies Multiple Method, Comparable Transactions Multiple Method
Rationale for using above methods	<p>(i) The equity shares of Megasoft are listed on NSE and BSE. Hence, we have considered the Market Price method under the Market Approach for valuing Megasoft. SASPL is not listed on any Indian stock exchange, hence, Market Price method under Market Approach is not considered.</p> <p>(ii) Comparable Companies Multiple ("CCM") method under the Market Approach has been considered for valuation of SASPL, whereby we have considered appropriate multiples of the listed comparable companies which are engaged in the business similar to that of SASPL for the valuation exercise. In the absence/paucity of adequate details about comparable transactions, the Comparable Transactions Multiple ("CTM") method is not considered for present valuation analysis exercise.</p> <p>(iii) We understand that Megasoft derives its value from its assets, hence Discounted Cash Flow Method ("DCF") would not be an appropriate methodology to value Megasoft. We have considered the DCF Method under Income Approach to value SASPL as the true worth of the business would be reflected in its future earnings potential.</p> <p>(iv) Summation Method is mainly used in case where the asset base dominates the earnings capability. In a going concern scenario of an operating business, the earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of proposed amalgamation, than the values arrived at on the net asset basis being of limited relevance. Therefore, we have not considered Cost Approach for valuation of SASPL.</p> <p>In the current case, Megasoft holds investment/assets in *immovable property and</p>

	associate company. Hence, we have analyzed the valuation of Megasoft as per Summation Method under the Cost Approach since it derives its value from its investments/assets.

- viii. *Rationale for undertaking Bonus issue in SASPL along with details of shareholders to whom they were issued and whether the impact of same was considered while arriving at the share-swap ratio.*

As per the information and the documents made available from SASPL, the said transaction was undertaken inter-alia to reward the shareholders of the Company.

Over the years, SASPL has demonstrated strong performance both in terms of profitability and business growth within the high-value Defence and Aerospace sector. As of March 31, 2024, the company had accumulated Reserves and Surplus of ₹41.71 crore, reflecting its consistent financial strength. In September 2024,

SASPL capitalized a portion of these reserves by issuing bonus shares in the ratio of 10:1. This strategic move was aimed at rationalizing the company's capital structure and rewarding its existing shareholders. The bonus issue aligned the paid-up capital with the substantial funds already deployed for business expansion and technological development. Furthermore, the increased equity base is expected to enhance liquidity and shareholder value, particularly in the context of the then upcoming merger with Megasoft, by creating a more robust and market-aligned capital structure.

The bonus shares were issued to all the shareholders namely:

1. Chintalapathi Holdings Pvt Ltd
2. C Damodar Reddy

The share-swap ratio arrived at takes into account the issuance of this bonus shares.

Summary of Valuation Approaches & Methodologies used for Valuation Exercise

Company Name	Market Approach - MP Method [1]	Market Approach – CCM / CTM Method [2]	Income Approach - DCF Method [3]	Asset / Cost Approach – Summation Method [4]
<i>Megasoft</i>	✓	X	X	✓
<i>SASPL</i>	X	✓	✓	X

1. The equity shares of Megasoft are listed on NSE and BSE. Hence, we have considered the Market Price method under the Market Approach for valuing Megasoft. SASPL is not listed on any Indian stock exchange, hence, Market Price method under Market Approach is not considered.
2. Comparable Companies Multiple (“CCM”) method under the Market Approach has been considered for valuation of SASPL, whereby we have considered appropriate multiples of the listed comparable companies which are engaged in the business similar to that of SASPL for the valuation exercise. In the absence/paucity of adequate details about comparable transactions, the Comparable Transactions Multiple (“CTM”) method is not considered for present valuation analysis exercise.
3. We understand that Megasoft derives its value from its assets, hence Discounted Cash Flow Method (“DCF”) would not be an appropriate methodology to value Megasoft. We have considered the DCF Method under Income Approach to value SASPL as the true worth of the business would be reflected in its future earnings potential.
4. Summation Method is mainly used in case where the asset base dominates the earnings capability. In a going concern scenario of an operating business, the earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of proposed amalgamation, than the values arrived at on the net asset basis being of limited relevance. Therefore, we have not considered Cost Approach for valuation of SASPL.

In the current case, Megasoft holds investment/assets in immovable property and associate company. Hence, we have analyzed the valuation of Megasoft as per Summation Method under the Cost Approach since it derives its value from its investments/assets.

**Independent Auditor's Report on the Consolidated Financial Results of the Company
for the Quarter Year to Date Results Pursuant to the Regulation 33 of the SEBI (Listing
Obligations and Disclosure Requirements) Regulations, 2015**

To,
The Board of Directors,
Megasoft Limited.

Report on the Audit of Consolidated Financial Results**Opinion**

We have audited the accompanying Statement of Consolidated Financial Results of Megasoft Limited ("Holding company") its subsidiary and its Associate (holding company, its subsidiary and associate, together referred to as "the Group"), for the quarter and year ended 31st March, 2025 ("the Statement"), attached herewith, being submitted by the holding company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of the other auditor on separate financial statements/ financial information of the subsidiary and associate, the Statement:

a. includes the results of the following entities:

- v. Velapan Systems Private Limited (Subsidiary)
- vi. Extrovis AG (Associate)

b. is presented in accordance with the requirements of Regulation 33 of the Listing Regulations, as amended; and

c. gives a true and fair view, in conformity with the applicable accounting standards, and other accounting principles generally accepted in India, of the consolidated net loss, other comprehensive loss and other financial information of the Group for the quarter ended 31st March, 2025, as well as the year-to-date results for the period from 1st April, 2024 to 31st March, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Results section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in "Other Matter" paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Consolidated Financial Results

These quarterly financial results as well as the year-to-date consolidated financial results.

The Holding Company's Board of Directors are responsible for the preparation and presentation of these consolidated financial results that give a true and fair view of the net profit and other comprehensive income and other financial information of the Group in accordance with the applicable accounting standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial results by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial results, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error

and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial results. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial results/financial information of the entities within the Group to express an opinion on the consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial results of which we are the independent auditors. For the other entities included in the consolidated Financial Results, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

Other Matters

1. We did not audit the financial statements/financial information of the subsidiary, whose financial statements/financial information reflect total assets of Rs.55.31 lakhs as at 31st March, 2025, total revenues of Rs.27.84 lakhs and Rs. 27.84 lakhs, total after tax net profit/(loss) of Rs. 0.54 Lakhs and (Rs. 2.78 Lakhs), and total comprehensive income/(loss) of Rs. 0.54 Lakhs and (Rs. 2.78 Lakhs), for the quarter and for the year ended 31st March 2025 respectively, and net cash flows of Rs 6.32 lakhs for the year ended on that date, as considered in the consolidated annual financial results, which have been audited by their respective independent auditors. One associate, whose financial statements include group share of net loss of Rs 820.27 lakhs and Rs 3.838.47 lakhs and Total Comprehensive loss of Rs.1,522.62 lakhs and Rs. 4,540.83 for the quarter and year ended 31st March 2025 respectively, as considered in the statement, whose financial statements, other financial information have been audited by their respective independent auditors.

The Statement includes the results for the quarter ended 31st March 2025 being the balancing figure between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subject to limited review by us.

Our opinion on the consolidated Financial Results is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Independent Auditor's Report on the Quarterly and Year to Date Audited Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To,
The Board of Directors,
Megasoft Limited.

Report on the Audit of the Standalone Financial Results**Opinion**

We have audited the accompanying standalone financial results of Megasoft Limited ("the Company") for the quarter ended 31st March, 2025 and the year-to-date results for the period from 1st April, 2024 to 31st March, 2025, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us these standalone financial results:

- i. Are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and
- ii. Give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards and other accounting principles generally accepted in India of the net profit and other comprehensive income and other financial information for the quarter ended 31st March, 2025 as well as the year-to-date results for the period from 1st April, 2024 to 31st March, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Results* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial results under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Standalone Financial Results

These quarterly financial results as well as the year-to-date standalone financial results have been prepared on the basis of the standalone financial statements. The Company's Board of Directors are responsible for the preparation of these financial results that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other matters

The Statement includes the results for the quarter ended 31st March 2025, being the balancing figure between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subject to limited review by us.

Our opinion on the Statement is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT

To
The members of,
M/s. SIGMA ADVANCED SYSTEMS PRIVATE LIMITED,
Report on the Audit of Standalone Financial Statements:

Opinion

We have audited the accompanying financial statements of **M/s. SIGMA ADVANCED SYSTEMS PRIVATE LIMITED** ("the Company") which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss and the Cash Flow statement for the period ended 31st March, 2025 and a summary of significant accounting policies and other explanatory information. (Here in after referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit, for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters:

We draw attention to the following matters in the Notes to the Standalone financial statements:

- a. Note 38 to the financial statements, which describes that the Board of Directors of the Company has approved a proposal for amalgamation with Megasoft Limited, subject to necessary approvals. As on the date of this report, the scheme has not yet been submitted to the Hon'ble National Company Law Tribunal (NCLT) for approval. Upon approval by the NCLT and filing of the order with the Registrar of Companies, the Scheme shall become effective with retrospective effect from 1st April 2024. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going

concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone financial statements, including the disclosures, and whether the Standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of M/s. SIGMA ADVANCED SYSTEMS PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **M/s. SIGMA ADVANCED SYSTEMS PRIVATE LIMITED** (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that

the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Dear Sir(s)/ Madam(s),

Sub: Determination of Fair Share Swap Ratio in relation to the Proposed Scheme of Amalgamation

We, BDO Valuation Advisory LLP ('BDO Val' or 'We' or 'Us'), have been appointed vide letter dated September 13, 2024, bearing its reference number SD/Sep131/2024, to determine fair share swap ratio as per the Proposed Scheme of Amalgamation between Sigma Advanced Systems Private Limited ("SASPL" or "Transferor Company") and Megasoft Limited ("Megasoft" or "Transferee Company"), wherein SASPL is proposed to be merged with Megasoft under applicable provisions of the Companies Act, 2013. Hereinafter SASPL and Megasoft are collectively referred to as "Clients" or "the Companies".

This valuation report ("the Report") will be used to comply with provisions of the Companies Act, 2013 ("the Act").

We are pleased to present herewith our report on the same.

We hereby confirm that we have no present or planned future interest in SASPL and Megasoft except to the extent of our appointment as a registered valuer for this Report.

We have considered the valuation base as 'Fair Value' and the premise of value is 'Going Concern Value' for estimating the value of SASPL and Megasoft. We hereby confirm that the valuation is carried out as per International Valuation Standards ("IVS"). Any change in the valuation base or the premise could have a significant impact on the outcome of the valuation exercise, and therefore, this Report.

We believe that our analysis must be considered as a whole. Selected portions of our analysis or the factors we considered, without considering all factors and analysis together could create a misleading view of the process underlying the valuation conclusions. The preparation of valuation is a complex process and is not necessarily amenable to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis.

This letter should be read in conjunction with the attached report.

- 4.20. Valuation is based on estimates of future financial performance or opinions, which represent reasonable expectations taking into consideration the economic, social and market patterns existing at that point in time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, a particular event will occur or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and the variations may be material. Although we have read, analyzed and discussed the Companies' management business plan for the purpose of undertaking a valuation analysis, we have not recommended on the achievability and reasonableness of the assumptions provided to us save for

satisfying ourselves to the extent possible that they are consistent with other information provided to us in the course of the assignment.

- 4.21. Whilst we have conducted analysis of the financial projections of SASPL for arithmetic and logical consistency, our review was not in the nature of an audit/ a due diligence. There will usually be differences between predicted and actual results and those differences may be material. The Clients have provided us with a set of financial projections that are based on internal estimates including growth expectations of end user industries, cost estimations, etc. and represent their best estimate of the expected performance of SASPL going forward. We take no responsibility for the achievement of the predicted results.

Accordingly, we make no representation or warranty, express or implied, in respect of the completeness, authenticity or accuracy of such factual statements. We expressly disclaim any and all liabilities, which may arise based upon the information used in this Report.
- 4.23. We owe responsibility to only the Board of Directors of the Clients and nobody else. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other party to the Companies. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the Companies, their directors, employees or agents. In the particular circumstances of this case, our liability, if any (in contract or under statute or otherwise) for any economic loss or damage arising out of or in connection with this engagement, howsoever the loss or damage caused, shall be limited to the amount of fees actually received by us from the Clients as laid out in the engagement letter, for such valuation work.
- 4.24. We do not accept any liability to any third party in relation to the issue of this Report. It is understood that this analysis does not represent a fairness opinion. - Relevant data and information provided to us by the management and representatives of the Companies either in written or oral form or in form of soft copy and information available in public domain.

6. Procedures Adopted

6.1. In connection with this exercise, we have adopted the following procedures to carry out the valuation:

- Requested and received financial and qualitative information, and clarifications regarding past financial performance of the Companies.
- Considered data available in public domain related to the Companies and its peers.
- Discussions (physical/ over call) with the management and representatives of the Clients to understand the business and fundamental factors that affect its earning-generating capability and historical financial performance of the Companies as available in public domain or provided to us by the Clients.
- Undertook Industry Analysis:
 - Researched publicly available market data including economic factors and industry trends that may impact the valuation;
 - Analyzed key trends and valuation multiples of comparable companies using proprietary databases subscribed by us or our network firms.
- Selected internationally accepted valuation methodology/(ies) as considered appropriate by us, in accordance with the International Valuation standards published by the International Valuation Standards Council.
- Arrived at valuation of the Companies in order to conclude our analysis on Share Swap Ratio for the Proposed Scheme.

6.2. For the purpose of arriving at the valuation of the Companies we have considered the valuation base as 'Fair Value' and the premise of value is 'Going Concern Value'. Any change in the valuation base, or the premise could have a significant impact on our valuation exercise, and therefore, this report.

7. Valuation Approaches & Methodologies

7.1. It is pertinent to note that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made several assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing

market conditions, and prospects, financial and otherwise, of the companies/businesses, and other factors which generally influence the valuation of the companies, its businesses and assets.

- 7.2. The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, analysis of businesses, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.
- 7.3. It may be noted that BDO Valuation Advisory LLP is enrolled with IOV Registered Valuers Foundation, which has recommended to follow International Valuation Standards (“IVS”) for undertaking valuation and accordingly we have considered the International Valuation Standards issued by International Valuation Standards Council (“IVSC”) in carrying out the valuation exercise.
- 7.4. The valuation date is considered as October 18, 2024 (“**Valuation Date**”). We have been provided with the limited reviewed consolidated financials of Megasoft for the three months period ended June 30, 2024 and limited reviewed financials of SASPL for the five months period ended August 31, 2024. We have taken into consideration the current market parameters in our analysis and have made adjustments for additional facts made known to us till October 17, 2024. Further, we have been informed that all material information impacting the Companies has been disclosed to us.
- 7.5. There are three generally accepted approaches to valuation:
- (a) "Cost" Approach
 - (b) "Income" Approach
 - (c) "Market" Approach

Within these three basic approaches, several methods may be used to estimate the value. An overview of these approaches is as follows:

Cost Approach

Summation Method

The summation method, also referred to as the underlying asset method, is typically used for investment/asset holding companies or other types of assets or entities for which value is primarily a factor of the value of their holdings.

Income Approach

The income approach is widely used for valuation under the “Going Concern” basis. It focuses on the income generated by the company in the past as well as its future earning capability. The Discounted Cash Flow Method under the income approach seeks to arrive at a valuation based on the strength of future cash flows.

Discounted Cash Flow Method

Under the Discounted Cash Flow ('DCF') method, the value of the undertaking is based on expected 'cash flows for future, discounted at a rate, which reflects the expected returns and the risks associated with the cash flows as against its accounting profits. The value of the undertaking is determined as the present value of its future free cash flows.

Free cash flows are discounted for the explicit forecast period and the perpetuity value thereafter. Free cash flows represent the cash available for distribution to both, the owners and creditors of the business.

The discount rate is the Weighted Average Cost of Capital ('WACC'), based on an optimal vis-à-vis actual capital structure. It is an appropriate rate of discount to calculate the present value of future cash flows as it considers equity-debt risk and also debt-equity ratio of the firm.

The perpetuity (terminal) value is calculated based on the business's potential for further growth beyond the explicit forecast period. The "constant growth model" is applied, which implies an expected constant level of growth (for perpetuity) in the cash flows over the last year of the forecast period.

The discounting factor (rate of discounting the future cash flows) reflects not only the time value of money, but also the risk associated with the business's future operations.

The Business/Enterprise Value so derived, is further reduced by value of debt, if any, (net of cash and cash equivalents) to arrive at value to the owners of business. The surplus assets / non-operating assets are also adjusted.

In case of free cash flows to equity, the cash available for distribution to owners of the business is discounted at the Cost of Equity and the value so arrived is the Equity Value before surplus/ non-operating assets. The surplus assets / non-operating assets are further added to arrive at the Equity Value.

Market Approach

Under the Market approach, the valuation is based on the market value of the company in case of listed companies and comparable companies trading or transaction multiples for unlisted companies. The Market approach generally reflects the investors' perception about the true worth of the company.

i. Market Price Method

Under this method, the market price of the equity shares of the company as quoted on a recognized stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the trading. The market value reflects the investors' perception about the true worth of the company.

ii. Comparable Companies Multiple Method

Under the Comparable Companies Multiple ('CCM') method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

To the value of the business so arrived, adjustments need to be made for the value of contingent assets/liabilities, surplus Asset and dues payable to preference shareholders, if any, in order to arrive at the value for equity shareholders.

iii. Comparable Transactions Multiple Method

Under the Comparable Transactions Multiple ('CTM') method, the value of a company can be estimated by analyzing the prices paid by purchasers of similar companies under similar circumstances. This is a valuation method where one will be comparing recent market transactions in order to gauge the current valuation of target company. Relevant multiples have to be chosen carefully and adjusted for differences between the circumstances. This valuation approach is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

8. Conclusion on Valuation Approach for Fair Share Swap Ratio

- 8.1. For determining the valuation base in relation to valuation of SASPL and Megasoft, we have considered the IVS issued by IVSC.
- 8.2. The present valuation analysis exercise is being undertaken to arrive at the fair share swap ratio for the Proposed Scheme as mentioned above in the Report.

SASPL and Megasoft:

Cost Approach:

SASPL

- This valuation approach is mainly used in case where the asset base dominates the earnings capability. In a going concern scenario, the earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of proposed amalgamation, than the values arrived at on the net asset basis being of limited relevance. Therefore, we have not considered Cost Approach for valuation of SASPL.

Megasoft

In the current case, Megasoft holds investment/assets in immovable property and associate company. Hence, we have analyzed the valuation of Megasoft as per Summation Method under the

Cost Approach since it derives its value from its investments/assets.

Market Approach:

Megasoft

- In the present case the equity shares of Megasoft are listed on NSE and BSE. Hence, we have considered Market Price Method under the Market Approach for valuation of Megasoft.
- We have considered the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 (last amended on May 17, 2024) ("ICDR Regulations") which provide guidelines to estimate the market price. The Pricing Formula provided in Regulations 164(1) of Chapter V of the ICDR Regulations has been considered for arriving at the minimum value per equity share of Megasoft under the Market Price Method. The market price is considered as higher of following:
 - a. the volume weighted average price for 90 trading days of preceding the relevant date; or
 - b. the volume weighted average price for 10 trading days of preceding the relevant date.

For determining the market price, the volume weighted share price of Megasoft over an appropriate period up to October 17, 2024, has been considered in the current case.

Accordingly, we have considered the higher price on comparison of prices mentioned above as per the pricing formula.

- We have not considered CCM/CTM method for valuation of Megasoft, as it does not carry operating business activity on its own.

SASPL

- Equity shares of SASPL are not listed on any stock exchange. Hence, we have not considered Market Price method.
- There are listed comparable companies in India which are engaged in the business similar to that of SASPL. Hence, we have considered the CCM method for valuation of SASPL.
- In the absence/paucity of adequate details about comparable transactions, the CTM method is not considered for present valuation analysis exercise.

Income Approach:

Megasoft

- We understand that Megasoft derives its value from its assets, hence DCF would not be an appropriate methodology to determine the equity value of Megasoft.

SASPL

- We have considered DCF Method under Income Approach to value SASPL as the true worth of the business would be reflected in its future earnings potential.

9. Basis of Fair Share Swap Ratio

- 9.1. The basis of the fair share swap ratio for the Proposed Scheme would have to be determined after taking into consideration all the factors and methods mentioned hereinabove and to arrive at a final value for the shares of each company. It is, however, important to note that in doing so, we are not attempting to arrive at the absolute values of the Companies, but at their relative values to facilitate the determination of the fair share swap ratio.
- 9.2. We have independently applied methods discussed above, as considered appropriate, and arrived at their assessment of value per share of the Companies. To arrive at the consensus on the fair share swap ratio for the Proposed Scheme, rounding off has been done in the values/ratio.
- 9.3. The fair share swap ratio has been arrived at based on the various approaches/methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses, having regard to information base, key underlying assumptions and limitations.

10. Conclusion of Fair Share Swap Ratio

- 10.1. In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment taking into account all the relevant factors. There will always be several factors, e.g. present and prospective competition, yield on comparable securities and market sentiments etc. which are not evident from the face of the balance sheets, but which will strongly influence the worth of a share. This concept is also recognized in judicial decisions. For example, Viscount Simon Bd in Gold Coast Selection Trust Ltd. vs. Humphrey reported in 30 TC 209 (House of Lords) and quoted with approval by the Honorable Supreme Court of India in the case reported in 176 ITR 417 as under:

"If the asset takes the form of fully paid shares, the valuation will take into account not only the terms of the agreement but a number of other factors, such as prospective yield, marketability, the general outlook for the type of business of the company which has allotted the shares, the result of a contemporary prospectus offering similar shares for subscription, the capital position of the company, so forth. There may also be an element of value in the fact that the holding of the shares gives control of the company. If the asset is difficult to value, but is nonetheless of a money value, the best valuation possible must be made. Valuation is an art, not an exact science. Mathematical certainty is not demanded, nor indeed is it possible".

10.2. In the light of the above, and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, in our opinion the fair share swap ratio for the proposed amalgamation of SASPL into Megasoft would be as follows:

Valuation Approach	Valuation Method	Megasoft		SASPL	
		Value Per Share (INR)	Weights	Value Per Share (INR)	Weights
Income Approach	DCF Method ³	NA	NA	202.8	50%
Market Approach	MP Method ¹	65.1	50%	NA	NA
	CCM / CTM Method ²	NA	NA	222.4	50%
Cost Approach	Summation Method ⁴	69.4	50%	NA	NA
Value Per Share (Rounded off)		67.2		212.6	
Swap Ratio (Rounded off)		3.16			

NA= Not Adopted/Not Applicable

1. The equity shares of Megasoft are listed on NSE and BSE. Hence, we have considered the Market Price method under the Market Approach for valuing Megasoft. SASPL is not listed on any Indian stock exchange, hence, Market Price method under Market Approach is not considered.
2. Comparable Companies Multiple (“CCM”) method under the Market Approach has been considered for valuation of SASPL, whereby we have considered appropriate multiples of the listed comparable companies which are engaged in the business similar to that of SASPL for the valuation exercise. In the absence/paucity of adequate details about comparable transactions, the Comparable Transactions Multiple (“CTM”) method is not considered for present valuation analysis exercise.
3. We understand that Megasoft derives its value from its assets, hence Discounted Cash Flow Method (“DCF”) would not be an appropriate methodology to value Megasoft. We have considered the DCF Method under Income Approach to value SASPL as the true worth of the business would be reflected in its future earnings potential.
4. Summation Method is mainly used in case where the asset base dominates the earnings capability. In a going concern scenario of an operating business, the earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of proposed amalgamation, than the values arrived at on the net asset basis being of limited relevance. Therefore, we have not considered Cost Approach for valuation of SASPL. In the current case, Megasoft holds investment/assets in immovable property and associate company. Hence, we have analyzed the valuation of Megasoft as per Summation Method under the Cost Approach since it derives its value from its investments/assets.

Recommendation:

The following is the recommended Fair Share Swap ratio:

316 (Three Hundred and Sixteen) fully paid equity shares of face value INR 10.0 each of Megasoft, for every 100 (Hundred) fully paid equity shares of face value INR 10.0 each held in SASPL.

This Report and Fair Share Swap Ratio is based on the equity share capital structure of Megasoft and SASPL as mentioned earlier in this report. Any variation in the equity capital of the Companies may have material impact on the Fair Share Swap Ratio.

4. Need for the Merger

Megasoft has commenced focusing, amongst others, in the Aerospace and Defence Sector and is in the process of evaluating a few companies for a potential acquisition and intends to provide centralized corporate, technology, finance and leadership/ management support services to such companies.

The need for merger of Sigma into Megasoft is as follows:

For Megasoft:

- Ready access to Sigma's Defence Business & Technology thereby reducing gestation period of entering into the profitable and high growth defence sector
- Acquiring a company with a well-established brand & track record with inherent experience and resources in the defence space
- A steady revenue stream from operations would provide a better market acceptance. Also, an existing line of business in the defence area, will provide Megasoft with fundamentals required to go in for future acquisitions in the defence and Aerospace sector.
- This acquisition, while bringing in operational revenues, also bringing in the required platform to move forward with identifying niche technological areas in the defence sector for fresh acquisitions towards diversification and growth.

For Sigma:

- Sigma, while growing steadily, has not been able to take advantage of the boom in the defence sector. Through this merger Sigma can leverage to reach new markets including new geographies.
- The liquidity that Megasoft brings will support Sigma to access new technology areas and talent pool that will enhance its R&D and manufacturing capabilities.
- This merger shall unlock the value for its shareholders.
- Sigma shall have access to a wider and experienced Leadership talent.

5. Rationale of the Scheme

The proposed amalgamation would be in the best interest of the Parties and their respective shareholders, employees, creditors and other stakeholders as the proposed amalgamation will yield advantages as set out inter alia below:

- (i) While Sigma proposes to leverage its position as a recognized design, development and manufacturing house and an approved company in Aerospace and Defence industry, to provide world-class products and services for national and international clients; Megasoft has commenced focusing, amongst others, in the Aerospace and Defence Sector and is in the process of evaluating a few companies for a potential acquisition and intends to provide centralized corporate, technology, finance and leadership/ management support services to such companies. Considering the objective of Megasoft to focus in the Aerospace and Defence sector, this amalgamation is being planned and the Scheme is anticipated to generate synergistic benefits, with both companies gaining from their pooled resources, experience, and skills.
- (ii) Combination of Sigma and Megasoft is entirely complementary to, and enhances the value proposition of Megasoft.
- (iii) The amalgamation is based on leveraging the significant complementarities that exist amongst Sigma and Megasoft. The amalgamation would create meaningful value for various stakeholders including respective shareholders, customers, employees, as the combined business would benefit from increased scale, maximize resource utilization, improve management, and reduction in costs and the ability to drive synergies across revenue opportunities and operating efficiencies amongst others
- (iv) The amalgamation is anticipated to generate synergistic benefits set out at para 6 below, with both Sigma and Megasoft gaining from their pooled resources, experiences, and skills.

6. Synergies of Business to Megasoft & Sigma

- Acquiring a company with a well-established brand & track record with inherent experience and resources in the defence space
- A steady revenue stream from operations would provide a better market acceptance. Also, an existing line of business in the defence area will provide Megasoft with the fundamentals required to go in for future acquisitions in the defence and Aerospace sector.

- This acquisition, while bringing in operational revenues, also brings in the required platform to move forward with identifying niche technological areas in the defence sector for fresh acquisitions, thereby promoting towards diversification and growth.

For Sigma:

- Sigma, while growing steadily, has not been able to take advantage of the boom in the defence sector. Through this merger, Sigma can leverage to reach new markets including new geographies.
- The liquidity that Megasoft brings will support Sigma to access new technology areas and talent pool that will enhance its R&D and manufacturing capabilities.
- This merger shall unlock the value for its shareholders.
- Sigma shall have access to a wider and experienced Leadership talent

The amalgamation of Sigma into Megasoft would be immensely value accretive to the shareholders and various stakeholders of Megasoft, including its shareholders, customers, and employees, as the combined business would benefit from: (i) ready access to Sigma's Defence Business & Technology thereby reducing gestation period of entering into the profitable and high growth defence sector; increased scale; (ii) plug and play of a company with well-established brand & track record with inherent experience and resources in the defence space; and (iii) A steady revenue stream from operations and an existing line of business in the defence area, will provide Megasoft with fundamentals required to go in for future acquisitions in the defence and Aerospace sector,

8. Cost Benefit Analysis of Scheme

The benefits to Megasoft and its shareholders of amalgamation of Sigma into Megasoft which are detailed in para 4 to 7 above far exceed and out way the cost to Megasoft and its shareholders in terms of dilution of the stake of existing shareholders of Megasoft in Megasoft, as they would benefit immensely over time from the accretion in the overall shareholder value of the Megasoft stemming from the synergies and benefits detailed at paras 4 to 7 above.

9. Valuation Methods Evaluated for the Share Entitlement Ratios

- 9.1 As per the Scheme, in consideration for the proposed amalgamation, the Transferee Company shall issue and allot to the Eligible Member (*as defined in the Scheme*) on the Record Date (*as defined in the Scheme*) (or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognised by the Board of the Transferee Company), except where the Sigma Shares (*as defined in the Scheme*) are held by the Transferee Company, if any, 316 Megasoft Shares (*as defined in the Scheme*), credited as fully paid-up, for every 100 Sigma Shares each fully paid-up held by such Eligible Member. The share entitlement ratio is determined as per the Valuation Report which is duly certified by the Fairness Report.
- 9.2 The equity shares of the Transferee Company to be issued and allotted to the shareholders of the Transferor Company as per the aforementioned share entitlement

ratio (which is in terms of the Valuation Report) are to rank *pari passu* in all respects with the existing equity shares of the Transferee Company.

- 9.3 Further, N.C Rajagopal & Co., Statutory Auditors of the Company, vide their certificate dated December 4, 2024 have confirmed that the accounting treatment as specified in the draft Scheme is in accordance with the applicable Indian Accounting Standards issued by the Institute of Chartered Accountants of India and as notified by MCA, read together with Section 133 of the Companies Act and the Companies (Indian Accounting Standards) Rules, 2015.

10. Review of the Committee

- 10.1 The Transferor Company and the Transferee Company are being considered as 'related parties'.
- 10.2 In terms of the Scheme, equity shares of the Transferee Company are proposed to be issued and allotted to the shareholders of the Transferee Company.
